

Culvert Bylaw

RESORT VILLAGE OF SHIELDS

BYLAW NO. 1/20

A BYLAW TO ESTABLISH REGULATIONS RESPECTING CULVERTS

The Council of the Resort Village of Shields in the Province of Saskatchewan, enacts as follows:

1. This bylaw may be referred to as the “Culvert Bylaw”.
2. Each parcel of land having access from the municipal road requiring installation of a culvert or culverts must have culverts with a minimum diameter of 304.8 mm (12 inches) and a length of not more than 9.144 meters (30 feet). A 3.048 meter (10 feet) space between neighbouring culverts is required – shorter spans may be approved if a catch basin is provided.
3. The Resort Village of Shields shall determine whether a culvert is required and the placement of the same.
4. Purchase and installation of required culverts shall be the sole responsibility of the property owner and the cost shall be borne by the same.
5. Any individual removing or altering installed culverts shall require permission of the municipality by way of a development permit.
6. This bylaw shall come into force and take effect on _____, 2020.
